

Company Profile

GEOCON Consultancy –

Overview

GEOCON Consultancy is a dynamic and rapidly growing geospatial and environmental consultancy firm based in Pune, operating from its own dedicated office infrastructure. The organization specializes in the creation, management, and advanced analysis of spatial databases, delivering intelligent, technology-driven solutions to government bodies and private sector clients.

We leverage cutting-edge Geographic Information Systems (GIS) to transform complex, multi-dimensional data into structured, actionable insights. Our solutions provide a unified platform for data integration, enabling efficient urban planning, environmental management, infrastructure development, and real-time monitoring.

GEOCON's core strength lies in its ability to present critical information through a single-window decision support system, allowing stakeholders to visualize outcomes, optimize resources, and make accurate, timely decisions with confidence.

Our team comprises young, highly skilled professionals with extensive domain expertise in geospatial technologies, environmental services, and project planning. We are committed to delivering precision-driven, high-quality consultancy services while maintaining strong ethical standards and long-term client relationships.

At GEOCON Consultancy, we don't just deliver data—we deliver clarity, strategy, and sustainable solutions that drive growth and efficiency.

GEOCON Consultancy is a fast-growing and professionally managed geospatial and environmental consultancy firm based in Pune, operating from its own dedicated office infrastructure. The organization is committed to delivering high-quality, technology-driven solutions in the field of Geographic Information Systems (GIS), spatial data management, and environmental consultancy.

At GEOCON, we specialize in the creation, management, and advanced analysis of spatial databases, enabling organizations to efficiently handle complex, multi-dimensional data. Our solutions are designed to support urban planning, infrastructure development, environmental management, and project implementation through accurate data visualization and integrated analysis.

We provide a robust decision support system that consolidates diverse datasets into a single-window platform, allowing clients to visualize outcomes, monitor performance, and make informed, strategic decisions with confidence.

With a team of skilled and dedicated professionals having extensive experience in geospatial technologies and environmental services, GEOCON Consultancy ensures precision, reliability, and innovation in every project. Our approach is client-centric, focusing on delivering sustainable, scalable, and result-oriented solutions.

We believe that quality, integrity, and long-term relationships are the foundation of success, and we continuously strive to exceed client expectations across both government and private sector assignments.

Vision Statement

To establish GEOCON Consultancy as a trusted leader in geospatial and environmental solutions, recognized for excellence, innovation, and contribution towards smart infrastructure and sustainable development.

Core Values

At GEOCON Consultancy, our work is guided by a strong foundation of values that define our approach, culture, and commitment to excellence:

Integrity

We uphold the highest standards of honesty, transparency, and ethical practices in all our interactions and deliverables.

Quality Excellence

We are committed to delivering accurate, reliable, and high-quality solutions that meet and exceed client expectations.

Innovation

We continuously adopt advanced geospatial technologies and innovative methodologies to provide efficient and future-ready solutions.

Commitment

We are dedicated to timely execution, professional responsibility, and maintaining long-term relationships with our clients.

Client-Centric Approach

We prioritize client needs by offering customized solutions and ensuring complete satisfaction through responsive and proactive service.

About Us – GEOCON Consultancy

GEOCON Consultancy is a Pune-based, fast-growing geospatial and environmental consultancy firm dedicated to delivering innovative, data-driven solutions for government and private sector clients. With a strong foundation in Geographic Information Systems (GIS) and spatial data analytics, we specialize in transforming complex data into meaningful insights that support planning, development, and decision-making.

Our expertise lies in the creation, management, and analysis of spatial databases, enabling organizations to efficiently handle large volumes of multi-dimensional data. We provide integrated solutions that bring various datasets onto a single platform, ensuring better visualization, monitoring, and strategic execution

Our Key Services

Geospatial & GIS Services

- GIS Mapping and Spatial Data Analysis
- Satellite Image Processing & Interpretation
- Database Creation and Management
- Thematic Mapping and Data Visualization

Urban Planning & Development

- Development Plans (DP) and Master Planning
- Town Planning & Infrastructure Planning
- Land Use Analysis and Mapping

Detailed Project Reports (DPR)

- Preparation of DPRs for Government Projects
- Technical Documentation and Feasibility Studies
- Project Planning, Cost Estimation & Execution Support

Environmental Consultancy

- Environmental Impact Assessment Support
- Solid Waste Management Planning
- Monitoring and Reporting Systems

Survey & Data Collection

- Field Surveys and Data Collection
 - Asset Mapping and Infrastructure Survey
 - GPS-based Survey and Data Integration
-

Our Expertise

We combine technical excellence with practical field experience to deliver accurate, reliable, and scalable solutions. Our team of qualified professionals is experienced in handling projects across multiple sectors, ensuring precision in execution and adherence to industry standards.

Our strength lies in delivering a single-window decision support system, enabling clients to:

- ✓ Visualize complex data clearly
- ✓ Monitor operations efficiently
- ✓ Make informed and timely decisions

Our Approach

At GEOCON Consultancy, we focus on:

- Client-centric solutions
- Use of advanced technologies
- Timely project delivery
- Long-term professional relationships

We are committed to supporting sustainable development through intelligent planning and innovative geospatial solutions.

OUR SERVICES

1. MAPPING SERVICES

- Large-scale data conversion (hard copy to digital)
- Satellite imagery processing
- Georeferencing & Edge Matching
- Topology Creation & Map Productio

2. GIS & ENVIRONMENTAL SERVICES

- Customized Land Base Data Development for:
 - Telecom & Broadband Sector
 - Wind Energy Projects
 - Town Planning & Infrastructure (SEZ, Townships)
 - Environmental & Conservation Projects
- Utility Mapping & Management:
 - Water Supply
 - Sewerage Systems
 - Gas Networks
- Consumer Mapping & Analytical Reporting
- Electrical Network Asset Mapping
- Navigation Data Development (VTS, Routing, Water Transport Tracking)
- GIS Solutions for ULBs, Zilla Parishads & Municipal Corporations

3. REMOTE SENSING SERVICES

- Agricultural Crop Mapping & Analysis
- Forest Cover Assessment
- Environmental Impact Assessment (EIA)

4. CONSULTANCY SERVICES

Project Management (PMC)

- End-to-end GIS Project Planning & Execution
- Customized GIS Process & Methodology Development
- Training & Capacity Building

Data Modeling & Structuring

- Multi-purpose GIS Data Models
- Centralized Data Platforms for Decision Making
- Integration-ready Structured Databases

Data Maintenance & Management

- GIS Data Updating & Integration
- Data Preservation & Optimization

- Periodic Review & Monitoring Support
-

5. SURVEY SERVICES

- Total Station Survey (Topographical & Land Parcel Mapping)
 - DGPS Survey (Trimble) for High Precision Mapping
 - GPS Survey (Garmin) for Routing & Navigation Mapping
-

6. SOLID WASTE MANAGEMENT (Municipal Councils & Nagar Panchayats)

- GEOCON Consultancy provides comprehensive and sustainable Solid Waste Management (SWM) solutions for Municipal Councils and Nagar Panchayats, ensuring scientific handling, processing, and disposal of waste in compliance with government regulations
 - Door-to-door waste collection system planning
 - Waste segregation at source (Wet / Dry / Hazardous)
 - Transportation and route optimization using GIS
 - Design & preparation of DPRs for SWM Projects
 - Development of waste processing facilities
 - Scientific landfill and dumpsite management
 - Implementation of Bio-mining (Legacy Waste Reclamation)
 - Monitoring & reporting using GIS-based systems
 - Preparation of Detailed Project Reports (DPRs) for SWM projects
 - Planning & implementation of Door-to-Door Waste Collection Systems
 - Segregation at Source (Wet, Dry & Domestic Hazardous Waste)
 - GIS-based Route Planning & Optimization
 - Design and development of Waste Processing Facilities (Composting, MRF, RDF)
 - Scientific Landfill Design & Management
 - Implementation support for Swachh Bharat Mission (ODF, ODF+, ODF++) Monitoring & performance tracking using GIS tools
-

7 Bio-mining (Scientific Dumpsite Reclamation) of legacy waste

- Scientific reclamation of legacy waste dumpsites
 - Bio-mining with mechanized excavation & segregation
 - Efficient **resource recovery** (soil, recyclables, RDF)
 - Environmentally safe **scientific disposal of rejects**
 - Significant reduction in landfill volume (up to 70–90%)
 - Elimination of environmental hazards (odor, leachate, fire risk)
 - Land reclamation for future infrastructure / public use
 - Compliance with **Solid Waste Management Rules, 2016**
 - Contribution to **Swachh Bharat Mission (ODF++, sustainable sanitation)**
 - GIS-based monitoring and project management support
 - Cost-effective and sustainable waste processing approach
-

8 ARCHITECTURE, URBAN PLANNING & TOWN PLANNING PROJECTS

GEOCON Consultancy provides comprehensive services in Architecture, Urban Planning, and Town Planning, focusing on sustainable, efficient, and data-driven development of urban and rural areas.

Scope of Services

1. Architecture Services

- Preparation of building plans & layouts
- Concept design and 2D/3D drawings
- Approval drawings as per local authority norms

- Land development & layout planning
 - Infrastructure planning for residential & commercial projects
-

2. Urban Planning Services

- City Development Plans (CDP)
 - Master Planning & Urban Expansion Planning
 - GIS-based Urban Planning & Analysis
 - Smart City Planning Solutions
 - Infrastructure & utility planning (water, sewerage, roads)
 - Sustainable and climate-resilient planning
-

3. Town Planning Services

- Development Plans (DP)
 - Existing Land Use (ELU) & Proposed Land Use (PLU)
 - Zoning & Land Use Regulation Planning
 - Town Planning Schemes (TPS)
 - Regional Planning & Growth Corridor Planning
 - Layout approvals and planning compliance
-

Key Project Components

- Base Mapping using GIS & Survey
 - Socio-economic and spatial data analysis
 - Infrastructure gap assessment
 - Environmental and sustainability planning
 - Public consultation and stakeholder engagement
-

GEOCON Expertise

- Integration of GIS, Survey, and Planning Techniques
 - DPR preparation for urban & infrastructure projects
 - Data-driven decision-making for planning authorities
 - Experience with Municipal Councils, Nagar Panchayats & Government bodies
-

Key Outcomes

- Planned and structured urban growth
 - Efficient land utilization
 - Improved infrastructure and service delivery
 - Sustainable and environmentally balanced development
-

Project Types Handled

- Residential Layouts & Townships
 - Municipal Development Plans
 - Smart City & Infrastructure Projects
 - Industrial & SEZ Planning
 - Rural & Regional Development Plans
-

Industries Served

. Government Sector

- Municipal Corporations
- Municipal Councils & Nagar Panchayats
- Zilla Parishads & Gram Panchayats
- State Government Departments & Agencies
- Urban Local Bodies (ULBs)

Urban Development

- City Development Plans (CDP)
- Town Planning & Land Use Planning (ELU / PLU)
- GIS-based Urban Planning Solutions
- Sanitation & Waste Management Projects
- Sustainable Development & Environmental Planning

Key Strength Across Industries

- Integration of GIS, Survey & Environmental Expertise
- Customized, data-driven solutions
- Proven experience with Government & Private Clients
- Focus on sustainability, efficiency, and compliance

TEAM / EXPERTISE

Our Core Team Includes

- Civil Engineers – Infrastructure planning, DPR preparation, and project execution
- GIS Experts & Analysts – Spatial data analysis, mapping, and GIS-based solutions
- Urban & Regional Planners – City development plans, land use planning (ELU/PLU)
- Environmental Engineers – Solid waste management, sanitation planning, and environmental compliance
- Survey Engineers – Total Station, DGPS & GPS surveys for high-precision data collection
- Remote Sensing Specialists – Satellite imagery analysis and geospatial modelling
- Project Managers – Planning, coordination, and timely delivery of projects
- CAD & Design Professionals – Drafting, mapping, and technical drawing preparation
- Data Analysts & IT Support – Data structuring, integration, and management systems

Our Expertise

- GIS & Remote Sensing Applications
- Solid Waste Management & Bio-mining Projects
- Urban Planning & Infrastructure Development
- Surveying & Mapping Technologies
- Environmental Planning & Sustainability
- Project Management Consultancy (PMC)
- Data Modeling, Structuring & Maintenance

INFRASTRUCTURE / OFFICE DETAILS

GEOCON Consultancy is equipped with modern infrastructure, advanced software, and precision survey instruments to ensure accurate, efficient, and high-quality project execution.

Office Infrastructure

- Well-established office space of 550 sq. ft.
- Fully equipped workstations with high-performance systems
- Reliable power backup and internet connectivity
- Organized workspace for project planning, data processing, and coordination

Software & Tools

- ArcGIS – Advanced GIS analysis and mapping
- QGIS – Open-source spatial data processing
- AutoCAD – Engineering drawings and drafting
- ERDAS IMAGINE – Remote sensing and image processing
- Adobe Photoshop – Map design and visual presentation

Survey & Field Equipment

- Total Station – High-precision land and topographical survey
- DGPS (Differential GPS) – Accurate geo-referencing and control points

- Drone Survey Equipment – Aerial mapping and site analysis
 - GPS Devices – Field data collection and navigation mapping
 - Distance Measuring Instruments – Accurate linear measurements
-

Key Capabilities

- Integration of survey, GIS, and planning tools
 - High accuracy in data collection and mapping
 - Efficient processing of large-scale spatial data
 - Capability to handle end-to-end project execution
-

CERTIFICATIONS & REGISTRATIONS

GEOCON Consultancy is duly registered and compliant with applicable government regulations, ensuring credibility, transparency, and eligibility to undertake projects across various sectors.

Government Registrations

- Registered with Municipal Councils / Nagar Panchayats / Urban Local Bodies (ULBs)
- Registration with relevant State Government Departments
- Eligible for participation in Government E-Tendering Processes

Government Registrations

- Registered with Municipal Councils / Nagar Panchayats / Urban Local Bodies (ULBs)
- Registration with relevant State Government Departments
- Eligible for participation in Government E-Tendering Processes

Licenses & Approvals

- Valid Shop Act License
- GST Registration Certificate
- Professional Tax Registration
- PAN Registration (Income Tax Department)
- Other statutory licenses as applicable

Digital & Technical Registrations

- Digital Signature Certificate (DSC) for E-Tendering
- Registration on Government E-Procurement Portals
- Vendor / Consultant Empanelment with Government & Semi-Government Bodies

CLIENTS / ASSOCIATIONS

GEOCON Consultancy has successfully worked with various Government bodies, Municipal Councils, and reputed organizations across Maharashtra, delivering reliable and result-oriented services.

Municipal Councils & Nagar Panchayats

- Wai Municipal Council
- Patan Nagar Panchayat
- Khandala Nagar Panchayat
- Vaduj Nagar Panchayat
- Medha Nagar Parishad
- Palus Nagar Parishad
- Vita Municipal Council
- Sangli Miraj Kupwad Municipal Corporation
- Kadegaon Nagar Panchayat
- Mahswad Municipal Council
- Dahiwadi Nagar Panchayat
- Bhor Municipal Council
- Khalapur Nagar Panchayat
- Ambarnath Municipal Council

- Kopergaon Municipal Council
 - Deolali Pravara Municipal Council
 - Chakur Nagar Panchayat
-

Government Departments & Authorities

- Maharashtra Jeevan Pradhikaran
 - Directorate General of Information and Public Relations
-

Trusts & Institutions

- Shri Saibaba Sansthan Trust
-

Key Associations

- Strong working relationships with **Urban Local Bodies (ULBs)** across Maharashtra
- Experience in handling **Government-funded and consultancy-based projects**
- Trusted partner for **GIS, SWM, Bio-mining, and Urban Development Projects**

MILESTONES

GEOCON Consultancy has consistently demonstrated growth, innovation, and excellence in delivering geospatial, environmental, and infrastructure consultancy services.

Key Achievements

- Successfully executed multiple Solid Waste Management (SWM) and Bio-mining (Scientific Dumpsite Reclamation) projects for Municipal Councils and Nagar Panchayats
 - Prepared and delivered Detailed Project Reports (DPRs) for City Development, Sanitation, and Infrastructure Projects
 - Implemented GIS-based Property Tax Systems and Land Use Mapping (ELU/PLU)
 - Contributed to Swachh Bharat Mission (ODF, ODF+, ODF++) initiatives across multiple Urban Local Bodies
 - Delivered GIS solutions for 24x7 Water Supply Schemes, including survey and consumer mapping
 - Executed Integrated District Development Planning projects (UNICEF-supported)
 - Successfully completed Industrial, Environmental & Agro-Tourism Consultancy Projects
-

Growth Milestones

- Established a dedicated office infrastructure with advanced GIS & survey capabilities
 - Built a multidisciplinary team of engineers, GIS experts, planners, and environmental professionals
 - Expanded services across multiple districts in Maharashtra
 - Developed strong associations with Government Departments, ULBs, and Private Organizations
 - Achieved 80% repeat client rate, reflecting trust and performance
-

Recognition & Strengths

- Recognized for delivering quality, timely, and cost-effective solutions
 - Proven expertise in GIS, Remote Sensing, SWM & Urban Planning
 - Trusted consultancy for Government & Semi-Government projects
 - Strong track record in handling multi-sector and large-scale assignments
-

Commitment to Excellence

- Focus on innovation, sustainability, and data-driven decision-making
- Continuous improvement in technology, processes, and service delivery
- Dedicated to supporting smart, clean, and sustainable urban development

FUTURE PLANS

GEOCON Consultancy is committed to continuous growth, innovation, and expansion to deliver advanced geospatial, environmental, and infrastructure solutions across India.

Expansion Goals

- Expansion of services across All India level
 - Strengthening presence in multiple states and urban regions
 - Establishing regional offices in key locations
 - Increasing collaboration with Government Departments & Smart City Projects
 - Scaling operations for large-scale infrastructure and environmental projects
-

Upcoming Services

- Advanced Drone Survey & Aerial Mapping Solutions
 - Smart City GIS Solutions & Urban Digital Twin Development
 - IoT-based Smart Waste Management Systems
 - Real-time Monitoring Systems for Water Supply & Utilities
 - AI-based Data Analytics for Urban Planning & Decision Making
 - Environmental Impact Assessment (EIA) & Climate Resilience Planning
-

Technology Advancement

- Integration of AI, GIS & Remote Sensing Technologies
 - Development of centralized Data Management Platforms
 - Adoption of cloud-based GIS solutions
 - Automation in survey, mapping, and reporting systems
-

Strategic Vision

- To become a leading Pan-India Geospatial & Environmental Consultancy
 - To deliver innovative, sustainable, and technology-driven solutions
 - To support Government initiatives like Smart Cities & Swachh Bharat Mission
 - To create long-term value for clients through data-driven decision making
-

Commitment for the Future

- Continuous skill development and team expansion
- Focus on quality, innovation, and timely delivery
- Building long-term partnerships with clients and stakeholders
- Driving sustainable and smart urban development across India
-
